NEW PRESTIGE

PRODUCT LINE-UP

TECHNOLOGY AT ITS BEST

VOXX IS REWRITING THE INDUSTRY STANDARD FOR THE VEHICLE SECURITY & REMOTE START CATEGORY

**TWO-WAY
LONG RANGE
OVER
1 MILE
CONFIRMING
TRANSMITTERS**

We are introducing our latest addition to the PRESTIGE line-up, our LoRa based Over 1 Mile of operating range Two-Way LED & LCD command confirming transmitters. This best in class transmitter operating range was the most requested feature update – and VOXX delivered.

This year, our team rebuilt the entire Prestige product line-up from the bottom up, giving our dealers the best of both worlds. We are launching our complete kit program of aggressively priced, best in class high quality systems – and a component program that only requires two parts – one of three control modules and one of over 11 different control options. This makes for the ultimate in how you present the system in your store and allows for upgrades after the sale, without carrying thousands of dollars of inventory.

**COMPLETE KIT
or COMPONENT
BASED PRODUCT
OFFERING**

TELEMATICS WITH CAR:LINK™

This year we're rewriting the industry standard with our best in class CarLink® telematics program. From our CarLink® BT Long Range system – that gives you control of your system from a smartphone without any monthly or annual fees from over 1 mile away to the CarLink® 4G Cellular network that gives you Control & GPS features with the first year of service included and low second year renewal, topping it off with the introduction of "My Branded App" that allows you to promote your business and drive additional sales right back to your store! This year, CarLink® sets the standard for all vehicle control telematics systems.

TO REWRITE THE INDUSTRY STANDARD, WE COULDN'T STOP THERE

We've also reduced the size and redesigned the control modules while adding a ton of new features. Developed all new transmitters with consistent best in class long range and a family look, integrated our FLCART data bus interface port for more installation options, and on-line programming with the ability to update system firmware in the field, all from the Flashlogic website—one place to program everything. Not to mention introducing innovative new products like the CarLink® program, that offers the industry's best program and My Branded App!

PRESTIGE is quality engineering and innovative design with best in class profits for dealer programs and ironclad product warranties. Partner with PRESTIGE for the best in Remote Start & Security products, programs, support and profits!

THANK YOU THE VOXX PRODUCT DEVELOPMENT TEAM

EXPAND YOUR REACH. WHY NOT PUT YOUR BRAND ON REMOTE START?

NEW TO CARLINK® 6 CELLULAR & CARLINK® LONG RANGE

You now have the ability to offer your customers a Remote Start APP with your BRAND allowing you to raise brand awareness and connect your customers directly with specials and promotions via customized push notifications.

YOUR BRAND. YOUR APP.

Take your business to a whole new level by offering your customers their own branded personal app.

THE BENEFITS OF GETTING YOUR OWN CUSTOM BRANDED APP:

INNOVATIVE PRODUCTS

Offer unique connected products that will provide your customers with a new experience of connectivity between them and their vehicle.

PERSONALIZED

Provided a more personalized experience to your customers.

PROFESSIONAL

Get ahead of retailers who don't offer a branded app.

BRANDED

Raise more brand awareness and get discovered in the market. Connect directly to you customers through customized push notifications.

CONVENIENT

My branded app dashboard is easy to use and will create your custom APP in a simple breeze.

ASCL6 - CARLINK® 6

Cellular 6 offers today's most complete convenience and security Solution. Cellular 6 transforms traditional Smartphones into a virtual transmitter to communicate with vehicle when hardware is installed to allow Smartphone app virtually unlimited range (based on cellular coverage) to operate remote start and security system.

- Remote start/ keyless entry
- Door lock/unlock
- Door lock status
- Battery voltage status
- Vehicle locator / GPS
- First year service included

FLCL6HAR required when adding ASCL6 to stand alone FLCAN applications. (Shown on pg 51)

Access your remote start & vehicle control anywhere with cellular coverage.

Set and configure your vehicle so no matter who is using it you stay connected.

Track or share your vehicle, enabling you to be informed of its current location.

CONNECT WITH LONG RANGE

Long Range when Smartphone communicates with 2-way remote (150' range) to windshield mount LoRa BLE for over 1 mile of operating range to operate remote start and security system.

CLLRCC

ASCLBTLR

- No monthly fees
- Rapid response
- Real time smartphone interaction
- Intuitive user display
- Alarm notification with zone identification
- True runtime mode
- Vehicle & transmitter battery level indicator
- Multi-vehicle operation
- 2-way remote with 1 mile+ of operating range
- Micro USB rechargeable battery
- Alarm notification
- Low vehicle battery detection
- True 2-way communications powered by Lora technology
- Compatible with most digital remote start and security systems
- Ble direct connect pair up to (4) smartphones directly to transceiver

APS997ZLR

2-Way LCD Remote Start/Keyless Entry & Security System with Over 1 Mile Operating Range

- (1) Five button 2-way LCD confirming transmitter
- (1) Five button 2-way LED confirming transmitter
- Flashlogic FLCART compatible
- Glass mount antenna with built-in LED light and valet switch
- Remote keyless entry
- Multi-tone mini siren
- Dual stage shock sensor with city mode*
- Flashing parking lights
- (11) NOC outputs, (19) Control options
- (4) Auxiliary outputs, (10) Control options
- Telematics port – CarLink® ready
- Web-based system programming
- Limited lifetime warranty

Selectable feature from the transmitter to select the operation of the shock sensor. This feature allows the pre-detect stage to be longer, and the full trigger mode to be short, eliminating annoying false triggers when parking near a subway or high traffic area.

APS997Z

Two-Way LCD Command Confirming Remote Start / Keyless Entry and Security System with Up to 1 Mile Operating Range

- (1) Five button 2-way LCD confirming transmitter
- (1) Five button 1-way transmitter
- Flashlogic FLCART compatible
- Glass mount antenna with built-in LED light and valet switch
- Remote keyless entry
- Multi-tone mini siren
- Starter interrupt
- Dual stage shock sensor with city mode
- Flashing parking lights
- (11) NOC outputs, 19 control options
- (4) - Auxiliary outputs, (10) control options
- Telematics port - CarLink® ready
- Web based system programming
- Limited lifetime warranty

APS787Z

One-Way Remote Start / Keyless Entry and Security System with Up to 1 Mile Operating Range

- (2) Five button 1-way transmitters
- Flashlogic FLCART compatible
- Glass mount antenna with built-in LED light and valet switch
- Remote keyless entry
- Multi-tone mini siren
- Starter interrupt
- Dual stage shock sensor with city mode
- Flashing parking lights
- (11) NOC outputs, (19) control options
- (4) - Auxiliary outputs, (10) control options
- Web based system programming
- Telematics port - CarLink® ready
- Limited lifetime warranty

APS57TM

One-Way Remote Start & Keyless Entry System with up to 1,500 Feet Operating Range

- (2) Three button 1-way transmitters
- Glass mount antenna with built-in LED light and valet switch
- Flashlogic FLCART compatible
- DBI port - supports DBI and ADS protocol
- Remote keyless entry
- Programmable basic security
- Web based system programming
- Telematics port - CarLink® ready
- Limited lifetime warranty

1,500
FEET RANGE

APSR3Z

One-Way Remote Start & Keyless Entry System with up to 1,000 Feet Operating Range

- (2) Three button 1-way transmitters
- Glass mount antenna with built-in LED light and valet switch
- DBI port - supports DBI protocol
- Remote keyless entry
- Flashlogic data port
- Limited lifetime warranty

1,000
FEET RANGE

APS901TM

One-Way Remote Start Only System with up to 1,500 Feet Operating Range

- (2) One button 1-way transmitters
- Glass mount antenna with built-in LED light and valet switch
- Flashlogic FLCART compatible
- DBI port - supports DBI and ADS protocol
- Programmable basic security
- Web based system programming
- Telematics port - CarLink® ready
- Limited lifetime warranty

1,500
FEET RANGE

APSR3Z

Remote Start System with up to 1,000 Feet of Range

- (2) One button 1-way transmitters
- Glass mount antenna with built-in LED light and valet switch
- DBI port - supports DBI protocol
- Flashlogic data port
- Limited lifetime warranty

1,000
FEET RANGE

APS596Z

Two-Way LCD Command Confirming Security System with up to 2,500 Feet Operating Range

- (1) Five button 2-way LCD confirming transmitter
- (1) Five button 1-way transmitter
- Flashlogic FLCART compatible
- Glass mount antenna with built-in LED light and valet switch
- Remote keyless entry
- Multi-tone mini siren
- Starter interrupt
- Dual stage shock sensor with city mode
- (9) NOC outputs, (13) control options
- (4) - Auxiliary outputs, (8) control options
- Web based system programming
- Telematics port - CarLink® ready
- Limited lifetime warranty

2,500
FEET RANGE

APS510Z

One-Way Security System with Up to 800 Feet Operating Range

- (2) Five button 1-way transmitters
- Glass mount antenna with built-in LED light and valet switch
- DBI port - supports DBI and ADS protocol
- Remote keyless entry
- Multi-tone mini siren
- Starter interrupt
- Dual stage shock sensor with city mode
- (2) - Auxiliary outputs
- Web based system programming
- Telematics port - CarLink® ready
- Limited lifetime warranty

800
FEET RANGE

APS25Z

One-Way Security System with Up to 800 Feet Operating Range

- (2) Three button 1-way transmitters
- Starter interrupt
- Dual stage shock sensor
- Limited lifetime warranty

800
FEET RANGE

APS45Z

One-Way Keyless Entry System with Up to 500 Feet Operating Range

- (2) Four button 1-way transmitters
- Remote panic
- Flashing parking lights
- Horn output
- (3) Year limited warranty

500
FEET RANGE

VOXXSEC

The VOXXSEC component based security system is a complete full-featured security system – you simply add one of our transmitter kits or telematics kits to control the system. Giving you the ultimate in flexibility and profitability.

KIT INCLUDES

NOTE: REMOTE CONTROL NOT INCLUDED WITH KIT

- FlashLogic FLCART compatible
- Factory remote compatible
- Multi-tone siren
- Starter interrupt
- Dual stage shock sensor

- (9) NOC outputs, (13) control options
- (4) - Auxiliary outputs, (8) control options
- Web based system programming
- Telematics port - CarLink® ready
- Limited lifetime warranty

- (1) 4180069 antenna/receiver
- (1) 4120464 antenna/receiver harness

SECURITY ACCESSORY UPGRADES

Add additional protection with extra layers of protection. Protect against “smash and grab”, protect your expensive wheels and tires, surround your vehicle with a force field to alert you before the thief even enters your vehicle and much more.

MBS

The MBS is a compact Multi-tone siren designed for vehicles with limited space in the engine compartment. The built-in Back Up battery provides additional protection to your vehicle in the event the vehicle's battery becomes disconnected or discharged.

MV3

The MV3 is the most reliable vehicle intrusion sensor on the market today. Detects moving objects within the vehicle using a unique RF technology. Ideal for convertibles.

DUB1

The DUB1 Digital Tilt Sensor is activated by the armed output of your vehicle's alarm system. Once activated, the DUB1 instantly and continually analyzes all pitch, yaw and motion data. The result is a tilt sensor that, regardless of conditions, detects less than one degree of lifting or any motion of the vehicle without error.

CAGBS

The CAGBS provides protection against entry to the vehicle when the security system is armed by detecting the breaking of vehicle glass. The remote microphone is designed to analyze the frequency of breaking glass to eliminate false trigger conditions.

ABOUT VOXX INTERNATIONAL CORPORATION

We are a leading global manufacturer and supplier of Automotive and Consumer Electronics products, with an expanding portfolio of iris-based authentication solutions for the rapidly growing biometrics industry. We have a broad range of products sold under a portfolio of over 35 well-known Consumer Electronics brands in the premium audio and accessories categories, including Klipsch®, RCA®, Acoustic Research®, Audiovox®, 808 Audio®, Magnat®, Heco®, Schwaiger®, Oehlbach®, and more. We also have an array of products within our Automotive Electronics segment, with brands such as Invision®, Rosen®, Advent®, and Code-Alarm® as well as the recently acquired brands of Rostra®, Vehicle Safety Manufacturing®, Viper®, Autostart®, AstroStart®, Automate®, Avital®, Clifford®, Directed®, and Python®. We supply our products to a diversified customer base consisting of automotive OEMs, specialty CE-retailers, mass merchandise and power retailers, 12-volt specialists, and other commercial entities.

We hold market-leading positions across many categories within our Automotive Electronics and Consumer Accessories segments. For years, we have been the #1 provider of rear-seat entertainment systems and believe we are the #1 supplier of vehicle security and remote start systems to domestic OEMs and to the automotive aftermarket. We are the #1 premium loudspeaker company in North America and believe we are the #1 supplier of antennas and TV remote controls at retail (also in North America). Our other brands typically hold top 5 or top 10 market positions within the categories we operate.

For additional information, please visit our website at voxxintl.com

Vision Zero Automotive Network is a 501(c)(3) non-profit entity dedicated to educating and encouraging the saving of lives through the addition of life saving technologies in existing vehicles.

VOXX International and all of its family of brands are committed to helping save our environment. To that end, all printed materials produced by us are printed on recyclable paper using only biodegradable ECO friendly coatings. We use soybean rather than petroleum based inks. Our printing presses have "Purge on Press" capability; use no alcohol and therefore result in no vapor pollutants in the air.

IMPORTANT SAFETY NOTICE

It is unlawful in most jurisdictions for a person to drive a motor vehicle which is equipped with a television viewer or screen that is located in the motor vehicle at any point forward of the back of the driver's seat, or that is visible, directly or indirectly, to the driver while operating the vehicle. This product should only be installed to the rear of the back of the driver's seat where it will not be visible, directly or indirectly, to the operator of the motor vehicle. In addition, the state of Rhode Island forbids the installation of such a device in a motor vehicle.
